MOUNTING

The Versatrim Adjustable Cylinder Series may be cable hung, stem mount, surface mount or wall mounted.

MODULE MECHANICS

The Versatrim Cylinder Series is constructed of a durable heat sink, baffle or reflector, trim ring, diffused lens, and Cree LEDs for optimum performance. Carefully designed heat sink keeps junction temperatures below unsuitable levels by dissipating heat away from the module. Diffused polycarbonate impact-resistant lens allows for even

light output, glare control, and conceals LEDs from view. The Adjustable Cylinder Series provides 0-30° tilt and 360° Rotation.
